

ELSEVIER

Review of Palaeobotany and Palynology 91 (1996) 431

REVIEW
OF
PALAEOBOTANY
AND
PALYNOLOGY

Contents Volume 91, 1996

| | |
|--|-----|
| Criteria to distinguish parautochthonous leaves in Tertiary alluvial channel-fills R.A. Gastaldo, D.K. Ferguson, H. Walther, J.M. Rabold | 1 |
| Late Eocene–Early Oligocene paleofloristic patterns in southern Mississippi and Alabama, US Gulf Coast F.E. Oboh, C.A. Jaramillo, L.M. Reeves Morris | 23 |
| Aspects of Permian palaeobotany and palynology. XV. On the oldest known peltasperms with radially symmetrical ovuliferous discs from the Kungurian (uppermost Lower Permian) of the Fore-Urals (Russia) S.V. Naugolnykh, H. Kerp | 35 |
| Aspects of Permian palaeobotany and palynology. XVI. Three-dimensionally preserved stromatolite-incrusted conifers from the Permian of the western Orobic Alps (northern Italy) H. Kerp, F. Penati, G. Brambilla, J.A. Clement-Westerhof, P.E. van Bergen | 63 |
| Permian freshwater stromatolites associated with the conifer shoots <i>Cassinisia orobica</i> Kerp et al. — a very peculiar type of fossilization P. Freytet, H. Kerp, J. Broutin | 85 |
| <i>Austrocalyx jejenensis</i> Vega and Archangelsky, <i>gen. et sp. nov.</i> , a cupulate rhacopteroid pteridosperm from the Carboniferous of Argentina J.C. Vega, S. Archangelsky | 107 |
| Recovery of vegetation from the terminal Permian mass extinction in North China W. Zi-qi | 121 |
| Marine algal remains from the Upper Devonian of South Africa N. Hiller, R.W. Gess | 143 |
| <i>Serilodinium</i> , a new Late Cenozoic dinoflagellate from the Black Sea G.L. Eaton | 151 |
| The dinoflagellate <i>Andalusiella</i> : emendation of the genus, revision of species, <i>A. ivoirensis</i> Masare, Tea and Yao, <i>sp. nov.</i> E. Masare, J. Tea, R. Yao | 171 |
| Dinocysts from Tchernaya Retchka (Ryazanian–Aptian, Lower Cretaceous) of the Moscow Basin, Russia E.K. Iosifova | 187 |
| Palynology of the Byers Group (Late Jurassic–Early Cretaceous) of Livingston and Snow islands, Antarctic Peninsula: its biostratigraphical and palaeoenvironmental significance A.M. Duane | 241 |
| Late-glacial palynology of the Myrtaceae of southern Chile M. Zhou, C.J. Heusser | 283 |
| Pollen morphology of Himalayan <i>Pinus</i> and <i>Quercus</i> and its importance in palynological studies in Himalayan area T. Nakagawa, Y. Yasuda, H. Tabata | 317 |
| Trilatioporate pollen from Indian Palaeogene and Neogene sequences: evolution, migration and continental drift B.K. Misra, A. Singh, C.G.K. Ramanujam | 331 |
| Distribution and palaeoecology of the Mesozoic wood genus <i>Xenoxylon</i> : palaeoclimatological implications for the Jurassic of Western Europe M. Philippe, F. Thevenard | 353 |
| Neorhabdocoela oocytes — palaeoecological indicators found in pollen preparations from Holocene freshwater lake sediments J.N. Haas | 371 |
| Wild and cultivated olive (<i>Olea europaea</i> L.): a new approach to an old problem using inorganic analyses of modern wood and archaeological charcoal J.-F. Terral | 383 |
| Pedoanthracological contribution to the study of the evolution of the upper treeline in the Maurienne Valley (North French Alps): methodology and preliminary data C. Carcaillet, M. Thimon | 399 |
| Sodium polytungstate, a new non-toxic alternative to bromoform in heavy liquid separation D. Munsterman, S. Kerstholt | 417 |
| Book Reviews | |
| <i>The Enigma of Angiosperm Origins</i> , by N.F. Hughes — M.S. Zavada | 423 |
| <i>History of the Australian vegetation: Cretaceous to Recent</i> , edited by R.S. Hill — S. Archangelsky | 424 |
| <i>Global Climates Since the Last Glacial Maximum</i> , edited by H.E. Wright, Jr., J.E. Kutzbach, T. Webb III, W.F. Ruddiman, F.A. Street-Perrot and P.J. Bartlein — P.A. Berkman | 425 |
| <i>The Fossil Record 2</i> , edited by M.J. Benton — A.H. Knoll | 426 |
| <i>Morphologie pollinique: Biologie, Systématique et Évolution</i> , edited by A. Le Thomas and I.K. Ferguson — W. Punt | 428 |
